illuminated inflatable collection

# illuminated inflatables

air and light merge to create instant decor and illumination, adding character and energy to a wide variety of events. blow your next event away with a quick and versatile, ground supported solution to almost any event environment!

# air-star illumination

helium and light merge to create gigantic lighting balloons offering ultra-bright space and area illumination. perfect for lighting empty fields, parking lots, festivals, and even weddings. as dusk falls, the colossal air-star becomes a “floating moon” providing both amazing illumination and a decorative element for almost any affair.
