---

the got light guide to pattern washes

# pattern washes

Nope! A lighting wash does not involve water or soap! A lighting “wash” or projection of texture or pattern is the perfect way to add a bit of life and visual interest to your event space.

There are literally thousands of options from which to choose, including broad washes of soft diffuse texture, elegant floral or leafy patterns, and modern lounge inspired designs. We're happy to make pattern suggestions based upon what will best compliment your event theme and any planned decor, as well as enhance the look & feel of the overall event.
