

## Plastic LED Dimmable IPL Bulb

### SPECS

- Wattage: 1w
  - Color Temperature: 2200k
  - Shape: S40 (1.5" Diameter, 2.5" Height)
  - Base: Intermediate/E17
  - Dimmable
- 

### TRANSIT

- Pre-bulbed strand
  - Wrapped over-under every 3 bulbs
  - Packed between carpet squares
  - Secured with zip ties
  - Both ends of IPL runs will be labeled with their length so if they need to be cut on site, Shop will know on their return that they need to be re-measured
- 

### SAFETY

- **Ends will be plugged into each other for transit so that it is clear that they are safely prepped with a plug and a receptacle.**
  - **If ends are not plugged in upon arrival, please triple check you do not have 2 plugs before installing! And communicate this back to the shop.**
- 

### INSTALL

Field will only cut lengths if absolutely necessary. If unused lengths can be hidden under velvet or in any other way, unused sections will be de-bulbed and taped over. Always cut if Signature Style requires it.

### RETURN

Field: when striking, please plug in each end as they were sent to you.

Shop will be plugging in all runs before packing and replacing any bulbs that are not turning on or that have been previously removed in the Field.
